

Standard Features:

- **Industrial Shredding System:** Designed to shred paper, stacks of computer forms, credit cards, CDs/DVDs, magnetic disks, USB flash drives, and even crumpled paper
- **Two Feed Inputs:** Front feed opening and upper rotating input bin for crumpled paper
- **LED Control Panel:** Lights indicate when shredder is ready, door/flap is opened, paper jam, or waste bag is full
- **Front Waste Bin Access:** Front cabinet door allows the shredder to be placed against a wall to maximize space savings
- **Mobile Waste Bin** on casters with reusable bag
- **Auto Start/Stop Mode:** Optical sensor detects paper and starts operation automatically
- **Manual Mode:** Shredder operates continuously for shredding small sized paper or films
- **Door Safety Sensor:** Motor stops automatically if cabinet door is opened
- **Auto Reverse:** In case of paper jam, built-in controls switch motor into reverse to clear jam
- **EvenFlow™ Automatic Internal Oiling System:** Lubricates cutting blades for optimal performance
- **Continuous-Duty Motor** for non-stop operation
- **Waste Bin Full Sensor:** When the waste bin is full the motor stops automatically
- **Large Safety Button** to stop operation
- **Thermal Overload Protection**
- **Safety Locking Capability:** Power switch can be secured in the OFF position with a padlock

Warranty:

- Lifetime Limited Warranty on cutting head
- 1-Year Warranty on all other parts

Commercial-grade power for high-volume multimedia shredding

The FD 8850CC Industrial Shredder offers automated features and rugged construction for high-volume centralized shredding of a variety of media.

Two separate infeeds offer flexibility. The upper input hopper has a rotating bin to accommodate batches of crumpled paper. Simply dump the waste bin from under your desk directly into the hopper, then turn the handle. The front input slot can accommodate paper, stacks of continuous computer paper, credit cards, CDs/DVDs, computer disks, and USB flash drives. In addition, a convenient shelf pulls out to allow for easier feeding.

Standard features include an LED control panel and user-friendly features such as Auto Start/Stop and Auto Reverse to clear paper jams. Its mobile waste bin on casters and reusable bag make emptying the shredder a breeze. With an AC-g geared motor and chain drive, it has the power to shred up to 80 sheets of paper at once, into Level 3 shred particles 1/8" x 2".

The EvenFlow™ Automatic Oiling System lubricates the cutting blades, helping to keep the shredder in peak operating condition.

The FD 8850CC provides security and versatility in a compact powerful package.

Powerful Security

The FD 8850CC Industrial Shredder has the power to shred stacks of computer forms, crumpled paper, CDs, credit cards and even USB thumb drives. This cross-cut model shreds up to 80 sheets in one pass and operates at a speed of up to 46 feet per minute. Shred particle size of 1/8" x 2" meets NSA/CSS standards for Level 3 security.

Two Infeed Options

Two separate infeeds provide a choice for operators. The easy-to-use upper hopper has a rotating bin which helps users to quickly and safely feed crumpled paper, even while the shredder is running. A standard front infeed slot easily accommodates other materials, and the fold-out loading shelf allows for easier feeding.

User-Friendly Features

LED indicators notify operators when the waste bin is full or the cabinet door is open. Operators can select from two modes of operation: Auto Start/Stop or Manual. Auto Start/Stop mode utilizes optical sensors which detect paper and start/stop operation automatically. Manual mode provides non-stop operation.

Easy to Maintain

The FD 8850CC features a mobile waste bin on casters, which allows for easier emptying. Keeping the shredder in top condition is easy to do, simply by pressing the reverse button which clears the blades of shredding debris. Plus, the EvenFlow™ Automatic Oiling System lubricates the cutting blades, helping to keep the shredder in peak condition for optimal efficiency.

Designed for Safety

Safety is an important component in the FD 8850CC design and engineering. A large safety button is conveniently located in the front and will shut down the shredder instantly when pressed. The main power switch can also be secured with a padlock to ensure the shredder is operated only by authorized staff.

Specifications:

Cutting Style:	Cross-Cut
Shred Size:	1/8" x 2"
Sheet Capacity:	70 - 80*
Speed:	Up to 46 fpm
Feed Opening:	17.5"
Dimensions:	36" W x 28" D x 63" H (with feed shelf open 40.5" D)
Bin Capacity:	77 gallons
Weight:	490 lbs.
Security Level:	Level 3 (HIPAA Compliant)
Power Supply:	3-Phase, #30 Amp, 208VAC NEMA L14-30P plug included NEMA L14-30R receptacle required

* Sheet capacity may vary due to variations in paper and power supply.

Easy-to-use control panel and lockable on-off switch

Fold-out shelf makes feeding easier

Rotating upper hopper (above) easily accepts crumpled paper right from your desk-side waste bin. Simply load, and turn the handle (below)
